**PRINCIPAL**  
Dr. Radhakrishnan College of  
Education Karmeta, Jabalpur

## **INSTITUTIONAL VALUES AND BEST PRACTICES**

### **Institutional Values and Social Responsibilities**

Gender equity is prompted at the college. It is promoted to foster the Principles of human rights, equality and social justice. College organises workshops & seminars on "Gender Equality ".To safeguard the rights of girls many cells and committees are formed. College emphasizes in solid, liquid & e-waste management and they are check-in. Some of the best practices in the college is YOGA and Meditation. Yoga and meditation are conducted on regular basis from last many years'.

College organizes many events & Programs to enhance ethics, morals and values among the students & staff. All the celebrations are conduct with the aim to bring harmony & brotherhood among the students. Many memorable days are celebrated to develop the feeling of patriotism & nationalism.

The college also conducts awareness drives for its students for the Voting. The institution involves several steps to ensure students are informed, motivated and able to participate in elections. The college organizes several activities like, rally, questionnaire, street show, run, flower decoration, rangoli making, essay competition, blood donation camps, slogan writing, debate, etc.

**Social Responsibilities:** To inculcate the values of social responsibilities, the college conducts various activities such as

1. Awareness program on junk food, street food
2. Cleanliness drive
3. Run for Democracy
4. HargharTiranga
5. Plantation Drive
6. Save girl child
7. Aids awareness program

### **Institution has a stated energy policy streamlining ways of energy conservation, use of alternate sources of energy for meeting its power requirements**

#### **Response:**

The college currently uses a 42 KVA generator as an alternative source to meet its power requirements. In the future, the college for alternative sources is poised to formulate a systematic energy policy of energy conservation methods and has considered to work seriously on it.

This is our long term goal as per the policy includes educating students and employees on environmental concerns and sustainability to turn our college into a carbon-negative institute. To include environment concerns in planning and decision making. Our sole goal is to include environmental concerns in planning and decision making.

Solar is one of the easy ways to cut down electricity costs at institutions. In our area, we receive around 340 days of sunshine a year. Compared to the rest of the other areas, we are in the driver's seat to utilise a large portion of the sun's energy.

1. Turning off lights or appliances when the college members do not need them.
2. Use of Halogen incandescent bulbs, compact fluorescent lights (CFLs) and light emitting diode bulbs (LEDs).
3. Use optimal quantity of water.
4. Use hot water only when very necessary.
5. Plant-trees or shrubs in the campus. A unit operating in the shade uses as much as 10% less electricity than the same one operating in the sun.
6. Computer is used when needed. A computer that runs 24 hours a day for instance uses more power than on energy-efficient refrigerator.
7. Setting computers, monitors and copiers to use sleep mode when not in use helps cut energy costs by approximately 40%.
8. More use of water cooler for cold and hot waters rather than refrigerator.
9. Use Solar Panel to reduce the electricity consumption.

### **Institution has a stated policy and procedure for implementation of waste management**

#### **Response:**

Dr Radhakrishnan College of Education (M.P.) will adopt the principles of the "MAXIMUM SUSTAINABLE WASTE MANAGEMENT" in the delivery of its waste management services. The College will apply a 'squander various levelled approach', to diminish, reuse, recycle and recuperate by products in preference to the removal of waste to landfill. The College recognizes the importance of meeting these legal prerequisites and deals with its waste responsibly, diminish the volume of waste sent to landfill and boost reuse and recycling where possible.

#### **Solid wastes management: -**

- \* Waste segregation is done at source level. Blue and green garbage bins are placed at several location blue for dry waste and green for food waste.
- \* The collection vehicle from Municipal Corporation collects dry and food waste daily from various collection points in the campus thus the campus is free from garbage always.
- \* The college generates huge amount of paper waste. The college adopts a tendering process to dispose of this paper waste.
- \* Cockpit pit is also been used to dump the waste material.

**Liquid waste management:-**

- \* Wastage of drinking water is restricted through proper monitoring.
- \* Waste water is property drained out to maintain the greenery in the campus as well as providing ecologically aesthetic environment proper drainage system is available.
- \* Water wastage is minimized by checked regularly the leakage by maintenance.

**E-wastage management:-**

- \* The condemned batteries and damaged computer are disposed as per college and guidelines of MP pollution control board.

**Implementation Procedure:- These are process follows:**

- \* Prevention
- \* Minimization
- \* Reuse
- \* Recycle
- \*Energy Recovery
- \*Proper Disposal (Landfill/Incineration)
- \* Avoiding waste at source and minimizing waste utilization

**Reuse, retrieval and recycling of non-hazardous waste:-**

Dr Radhakrishnan College of Education will explore opportunities for reuse, recovery and recycling of waste in an environmental manner. Paper waste will be recycled to make paper boards and packing materials. The paper's toxic inks and dyes will be treated with enzyme technology, which environmentally benign.

**Safe disposal of hazardous waste:-****Setting up of general treatment, storage and disposal facilities:-**

General treatment plants for departmental and household waste will be set up and rotatable and non-biodegradable waste will be separated and treated according to their physical nature.

**Rainwater harvesting structures and utilization in the campus**

- \* Rainwater is collected from rooftops of building from existing down takes.
- \* A roof harvesting system based on the rock technique has been installed.
- \* Sprinklers are installed in gardens.
- \* Hygienic toilets with technology for zero water consumption are in place in departments.

## **Institution is committed to maintenance of cleanliness, sanitation, green cover and providing a pollution free healthy environment.**

### **Response:**

By enforcing the Prime Minister's "Swachh Bharat Mission", is always committed to maintaining a clean college environment sets a good example to students, teachers & other staffs. It encourages learners to take pride in their college, which makes them less likely to drop litter and as such they will potentially make a bigger effort to maintain their environment. Cleanliness is incredibly important when it comes to cutting down on the spread of diseases in the college and means that staff and students are able to enjoy a comfortable learning environment. It also improves hygiene levels and can help to reduce the spread of sickness.

### **Cleanliness in Campus:**

1. Provide door mats in each class.
2. Keep trash bins in each working station and class.
3. Start recycling practices in the college.
4. Encourage students and teachers to keep things away immediately after use.
5. Organise cleaning day events like "Swatchh Bharat".
6. Clean the campus facilities frequently.
7. Hire a professional cleaning team.

### **Sanitation:**

1. Personal hygiene
2. Safe drinking water
3. Toilet/human excreta disposal
4. Disposal of waste water
5. Solid waste management
6. Environmental sanitation

### **Green Cover**

We are endorsing and enforcing measures to make the College a carbon negative following:

#### **1. Tapping Solar Energy**

The sun has an abundant supply of solar energy. We therefore have future plans to plants and create sustainable energy for the requirement of the campus.

## **2. Rainwater Harvesting**

In another step towards the preservation of the intricate water table in the college, building have been made compatible for rain water harvesting. We are positive that the rain water harvesting method employed by us will be the guiding light for others.

## **3. Utilizing Natural Light**

The building architecture of college is designed in such a manner that permits free flow of air and allows natural light to cover all the corners of the building. The ample natural light usage of the lights in the corridors and rooms.

## **4. Plantation Drive**

The college has organized a plantation drive aimed at raising environmental awareness among students and staff members. The initiative underscores the importance of environmental stewardship and encourages the community to actively participate in creating a green campus.

## **5. Pollution Free Healthy Environment**

1. Use Reusable Water Bottles and Coffee Mugs.
2. Recycle and Compost.
3. Waste control chemicals and e-waste management
4. Use of LED bulbs in college
5. Conducting energy audit
6. Dustbins on the Premises
7. Waste control in entire campus
8. No use of plastic in campus
9. Use of dust proof chalks in classrooms
10. Minimum use of Photocopy/Printing

**Institution puts forth efforts leveraging local environment, locational knowledge and resources, community practices and challenges.**

### **Response:**

Dr. Radhakrishnan College of Education, is always sensitive and emphatic towards social, environmental and community problem. Time to time the college has organized the seminars, webinars and programs touching the issue of environment, society and community. The college is willing to nurture a healthy environment for which different programs like plantation, run for democracy, aids awareness, harghartiranga, save & educate girl child are organized.

India is a country of multi ethnic culture where people belonging to religious, racial, cultural and lingual identities live together harmoniously. So to maintain an inclusive environment and to give environmental awareness and knowledge about resources and community practicality is very necessary to the students.

Keeping this view in mind, Dr Radhakrishnan College of Education tries to maintain harmony and try to create good will among students. Most of the students taking admissions in the college are local and belong to the nearby places and other district of M.P. In major extension activities participation of faculties, students and non-teaching staff are commendable. Each and every student along with faculty members are fully involved in the national developmental activities, national festivals, awareness rallies and government and non-government campaigns. The flex board of environmental awareness, use of different resources, social harmony, unity and moral values are displayed on the college campus. College plays an effective role as a catalyst in the area to maintain peace and national integration.

The college regularly organizes different activities for inculcating the values of tolerance, harmony towards cultural diversities. These activities have a very positive impact on society's cultural and communal thought directly. The college thereby celebrates Independence Day, Republic Day, Gandhi Jayanti, Rashtriya Ekta Divas every year with great honours and respect. These programs organized by the college promote greater value of life, love, integrity, fraternity and patriotism in the minds of the students. The students and staff visited old age home, rehabilitation centre, orphanage and Blind School and offered gifts and distributed sweets, chocolates and lunch to the people and visually impaired students. The institution donated money to different Society, NGO's for poor's. Thus a sense of commitment towards nation, society and responsibility towards community and humanity at large is installed in the mind of the students.
